

The Tape Alternative That is *Skin friendly*

Securi-T[™] **Hydrocolloid Skin Barrier Strips**

Tape, particularly those of a waterproof nature can be very aggressive to the point of causing irritation to the skin as well as being difficult to the remove causing more harm to the skin.

The ***Securi-T*** Hydrocolloid Skin Barrier Strips help protect the integrity of the skin while providing extra security and comfort.

- Use on top of the appliance to picture frame
- Use under the appliance for skin protection and to assist appliance adhesion
- Great for those who cannot use tape due to skin allergy or irritation
- Can be used with any brand of ostomy appliance
- Pre-cut and pre-shaped for easy application
- Easy to remove
- Reimbursed by most insurance providers
